NEWS FROM 9-1-1

There are many new and exciting things taking place at the 9-1-1 center!

First and foremost is the construction underway for

the new Billings 9-1-1 center. Staff watches from the two tiny windows with eager eyes as the progress slowly unfolds. The projected time frame for completion is August 2018, and for employees who've been hearing about the possibility of a new center for more than a decade, the wait is excruciating!

Billings City/County 9-1-1 has recently implemented Text-to-911 and has received a handful of calls for help since this function has been available. Montana is one of the leading states in the nation to provide Text-to-911 coverage. People needing emergency services are encouraged to call 9-1-1 if they are able, but now texting is available. 9-1-1 staff are also currently revamping call taker/dispatcher

New 9-1-1 Center Groundbreaking Ceremony on August 31, 2017

training programs, as well as integrating a welcoming committee for new employees. There is currently a lot of movement and exciting change within the division.

Recent additions to the 9-1-1 team are Dominick Wood and Henry Bennett. Both joined the team in August, completed classroom training and began working with dedicated trainers the last week of the month. Dominick previously worked for BNSF, while Henry spent time in retail and community outreach. With the addition of Dominick and Henry, the 911 center is fully staffed. Training shall continue throughout 2017 in order to provide the community with first class emergency response service.

City Administrator TINA VOLEK RETIRES

Assistant City Administrator Bruce McCandless has agreed to serve as interim city administrator until the new person begins working at City Hall.

The Mercer Group is aiding the Mayor and City Council members in the search for Volek's replacement and is currently receiving and reviewing applications from qualified candidates until Oct. 6.

The Mayor and Council members anticipate interviewing finalists at the end of November, hiring

in December and the new City Administrator starting after the first of the year.

Tina Volek, the longest serving City Administrator in Billings' history, retired on Sept. 30.

Volek's calm demeanor, keen sense of humor and dedication to serving others has served her well and has helped when tackling some of the City's biggest challenges.

Volek stated that she was grateful for the opportunity to serve and help craft the future of the Magic City.

HOLIDAY DECORATIONS AT BILLINGS MOUNTVIEW CEMETERY

Normally, decorations stuck in the ground or laid on the ground are not allowed. But as the winter holiday season approaches, decoration restrictions are lifted, within reason.

Some people put out small lighted Christmas trees, and many put out wreaths in all shapes, sizes and colors.

So please come and help make Mountview festive this year. Be aware, however, that decorations must be removed from the Cemetery before Friday, Jan. 19, 2018, if you wish to keep them for future years.

On that day, staff will remove all ground-level decorations and any not in regular flower containers.

BE HALLOWEEN Safe

Halloween is a fun, and spooky, time of year for kids. Make trick-or-treating safe for your little monsters with a few easy safety tips.

Sparky® is a trademark of the NFPA.

With Halloween quickly approaching, please take a few minutes to make sure children stay safe during the holiday. When choosing a costume, stay away from long trailing fabric. If your child is wearing a mask, make sure the eye holes are large enough so he or she can see out. Provide children with flashlights to carry for lighting or glow sticks as part of their costume.

Dried flowers, cornstalks and crepe paper catch fire easily. Keep all decorations away from open flames and other heat sources such as light bulbs and heaters. Use a battery-operated candle or glow-stick in jack-o-lanterns. If you use a real candle, use extreme caution. Make sure children are watched at all times when candles are lit. When lighting candles inside jack-o-lanterns, use long, fireplace-style matches or a utility lighter. Be sure to place lit pumpkins

well away from anything that can burn and far enough out of the way of trick-or-treaters, doorsteps, walkways and yards.

If your children are going to Halloween parties, have them look for ways to get out of the building and plan how they would get out in an emergency.

Tell children to stay away from open flames including jack-o-lanterns with candles in them. Be sure they know how to stop, drop and roll if their clothing catches fire. (Have them practice, stopping immediately, dropping to the ground, covering their face with hands, and rolling over and over to put the flames out.)

The Billings Fire Department wishes everyone a fun, safe, and scary Halloween! For more information on fire safety, please call (406) 657-8422.

BILLINGS PUBLIC LIBRARY

NEW LIBRARY HOURS!

The Billings Public Library has announced new hours. The new schedule follows:

Monday – Thursday: 10 a.m. – 9 p.m.

Friday (Summer Hours): 10 a.m. – 6 p.m.

Friday (Labor Day – Memorial Day): 10 a.m. – 9 p.m.

Saturday: 9 a.m. – 5 p.m.

Sunday: CLOSED

Join the Billings Public Library on Friday nights for family fun! Each Friday through the school year, the Library will host different FREE and WHOLESOME events for families. Some events include: movie night, game and trivia night, bingo night, video games, board games, coloring, and so much more!

For questions, please contact Assistant Library Director, Tori Koch at kocht@ci.billings.mt.us.

CITY CONSTRUCTION PROJECTS NEAR COMPLETION

The City's summer construction projects are almost all wrapped up! Several of the projects were on key transportation routes and required efficient, well-planned work by the project team, in combination with patience and cooperation from many business owners, their customers, and the traveling public.

The City's website is a great place to check for weekly updates on all active projects. The address is <http://ci.billings.mt.us/557/Current-Projects>. Here is a quick update of major projects done this summer:

- Grand Avenue from 52nd to 56th - the project included widening the road, installing a traffic signal at 54th and Grand, adding multimodal facilities on 54th (from Grand to Rimrock) and on Grand Avenue. The work was completed before the Ben Steele Middle School opened, with the

exception of the signal at 54th and Grand Avenue.

- Overlay on Central Avenue from 6th to 24th Street West. This project is complete.
- 24th Street West water line replacement between Monad and Central. This work was primarily done at night due to the high volume of traffic, lack of efficient detours, business accesses, and lack of residential homes (which can be an issue when working at night due to noise). This project is complete.
- Water and Sewer replacement on 6th Avenue North from North 26th through Division/Grand Avenue intersection. This project will be completed in October.
- Several other water/sewer projects were done this summer in alleys and on local streets. There are a few areas that are still under construction but will be completed in October.
- Storm sewer replacement on 14th Street West between Grand and Lewis. This work was completed before school started.

So, what can you expect next summer? Here are a few of the larger projects the City has planned:

- Midland Road from South Billings Boulevard to Mullaney Lane.
- Central Avenue from 32nd to Shiloh.
- Overlay 24th Street West from King to Central Avenue.
- Zimmerman Trail from Rimrock to Highway 3 (MDT/City project).
- Waterline replacement in North 27th from 6th Avenue North to Rimrock. This work is being done ahead of MDT's overlay of North and South 27th from I-90 to Airport Road.

As you are probably aware though, the City is not the only entity doing work each summer, so there will be more projects than are shown here.

Thanks for your patience and understanding as work is completed to maintain quality infrastructure throughout this growing city!

WINTER DRIVING SAFETY TIPS

Winter is headed for Montana and the Billings area. With the first blast of cold air mixed with snow and ice, there are regularly a significant number of vehicle accidents. The following safety tips are a reminder that winter driving takes additional skills and a lot of patience.

Driving on Ice and Snow:

- Go slow and give yourself plenty of room to stop. A good rule of thumb is to allow for three times the normal distance between vehicles.
- Brake gently and avoid locking your vehicle brakes.
- Areas like bridges, overpasses and shady roads may be especially slick.
- Don't pass snowplows or sand trucks. They have limited visibility and the road ahead may be worse than the road behind.
- Four-wheel drive may help you move forward, but is little help in stopping quicker.
- Check your ability to stop when in doubt.

If You Get Stuck:

- Do not spin your wheels, as this usually only gets you deeper into trouble.
- Go light on the gas pedal.
- Try to turn your front wheels from side to side to push snow out of the way.
- Try rocking your vehicle, but be careful as this can cause serious damage to a vehicle transmission.
- If you're stuck and have called for help, do not stand outside, close to your vehicle. If the road is slick, other vehicles may also have trouble stopping.

TEAM BILLINGS: 2017 UNITED WAY DAY OF CARING

The City of Billings had 15 volunteers participating in this year's United Way Day of Caring on Sept. 14.

City volunteers worked on two different projects: Friendship House of Christian Service and Wise Wonders Children's Museum.

The volunteers who participated in the Friendship House program assisted in the installation of an outside irrigation system. The savings, in installation cost and conservation of water long term with the drip irrigation system that was installed, will allow funds to be focused on helping kids and families

while still having a welcoming facility for the services to be delivered.

The staff at the Wise Wonders Children's Museum were quite appreciative of the hard workers who completed a variety of tasks at their site, including painting and cleaning.

City employees also gathered donations for the recent United Way Operation Supply drive. Many school supplies were gathered and delivered to United Way headquarters for distribution as needed, and more than \$200 was raised through a 50/50 raffle at the City Employee Picnic to purchase more supplies for the effort.

Upcoming United Way activities include the donation/collection of food to assist in accommodations for local school pantries, and City employee participation in the annual campaign to contribute

funds to various local programs in Billings and Yellowstone County that focus on helping kids attend and graduate from school and alleviating poverty.

City Earns FINANCE GFOA AWARD

The City of Billings has received its 32nd consecutive Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for the City's Fiscal Year 2016 Comprehensive Annual Financial Report (CAFR).

The Certificate of Achievement is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

The CAFR was judged by an impartial panel to meet the high standards of the program, which includes demonstrating a constructive "spirit of full disclosure" to clearly communicate its financial story and motivate potential users and user groups to read the CAFR.

BUSINESS AND BUILDING OWNERS NEED TO BE AWARE OF CHANGE OF USE AND OCCUPANCY REQUIREMENTS FOR EXISTING BUILDINGS

Change in building use may require City approval

Before a business owner plans to buy, rent, or lease a building or space for a business, he or she should contact the Building Division. Changing the use or occupancy of a building or space involves several code considerations and very few are "grandfathered".

An occupancy classification is assigned to each building when it is constructed and each occupancy classification has different code requirements. The building may not be code compliant with certain occupancies or will need upgrades, such as a fire sprinkler system, to be compliant with current code.

'Change of Occupancy' refers to the classification of the building changing between occupancy categories, such as from B (Business) to E (Educational). Going from a lower hazard oc-

cupancy, such as offices (Business), to a higher hazard, such as a restaurant (Assembly) almost always triggers additional requirements.

'Change of Use' refers to a change in the use of the building within an occupancy category. The code regulates that as well considering that the building may be used for a similar function, but will have a greater occupant load, or there may be different hazards associated with the new use that need to be accounted for.

Even if no construction is planned, a change of use or occupancy permit may still be required to verify occupant load, exiting, accessibility, plumbing facility requirements, etc.

Is Your Duplex or Basement Apartment Legal?

Homeowners, Realtors, and landlords need to be aware that

single-family houses that were converted into multi-dwelling unit buildings, but were not permitted as such, need to go through the change in use process. No additional addresses or permits will be issued for those structures until they are legally converted and meet all code requirements. It is recommended to contact the Building Division to verify if a structure was legally built or converted to a duplex or multi-family dwelling. Additionally, the Planning Division can verify if the zoning allows for multiple units on the particular lot.

The Building Division staff are happy to help with these processes and answer any permitting or code specific questions. The Building Division is located on the 4th floor of the Miller Building at 2825 3rd Avenue North, and can be reached by phone at (406) 657-8270.

News from Billings Parks, Recreation and Public Lands

The Billings Parks and Recreation is offering several programs to keep the community active during the fall season. There are activities for participants of all ages.

Girls Basketball

Girl's 4th, 5th, and 6th-grade basketball will begin on Oct. 16. Participants can choose between six middle school practice sites located throughout town. Games will be played on Saturdays for five weeks at Orchard Elementary starting on Nov. 4. This is a great league for those newer to the game of basketball and would like to learn fundamental skills. Boy's 4th-6th grade basketball will begin Dec. 11th and 12th and will run through Feb. 3.

Tiny Tigers Tumble & Play

For the 3-6 year olds, the Tiny Tigers Tumble and Play class provides instruction in basic tumbling and gymnastic skills. This class will start on Oct. 19 and will be held on Thursdays through Nov. 30. The cost is \$45 for Billings' residents with class being held at the North Park Center.

Youth Tennis

Tennis isn't just a summer sport around here. The 10 and Under Indoor Tennis program will begin on Oct. 21. Class will be held on Saturday mornings at the North Park Center. For additional program information or to register online, please visit www.BillingsParks.org

Men's and Women's Competitive, Semi-Competitive, or Recreational Basketball

Don't miss your chance to sign up your Men's and Women's Competitive, Semi-Competitive, or Recreational Basketball team in the Billings Parks and Recreation's City League. Registration deadline for the 2018 season is Dec. 13, with the season starting play in January. The Co-Ed Volleyball league will also be making its return and will help bump, set, and spike the way through the winter. Games are played on Sundays at Castle Rock Middle School.

Red Lodge Cross-Country Ski Trip

Back again this winter by popular demand is the Red Lodge Cross-Country Ski Trip. Come enjoy a fun-filled day of Cross-Country skiing in the Red Lodge Nordic Ski Center. Dates to soon be announced!

Don't forget to follow Billings Parks and Recreation on Facebook for new and upcoming events!

Stay tuned for more updated information regarding these upcoming fun winter programs.

NEW CITY-COUNTY PLANNING DIVISION MANAGER HIRED

Monica Plecker, AICP, was hired as the City-County Planning Division Manager in late July and has been very busy in her first several months in the position.

Monica fills the position Wyeth Friday vacated in November 2016 when he was

hired as the Planning and Community Services Department Director.

"Monica comes to the City with experience in the public and private sector in the planning profession," said Wyeth Friday.

She last worked for CTA Architects Engineers as a Planning Project Manager, working with communities in Montana, North Dakota and Wyoming. Prior to that, she was the Planning Director in Laurel; managing planning, building

and code enforcement activities in the community. She also has experience working at the regional level in her home state of Virginia, working for a 5-city, 11-town, and 5-county regional land use and transportation planning district.

"I am very happy to have Monica join the Department and provide direction and oversight to the Planning Division for work in the City and County," Friday said.

Monica may be reached at (406) 247-8660 or at pleckerm@ci.billings.mt.us

COMMUNITY LAUNCHES ZONING CODE UPDATE

The City Council and Yellowstone County Board of County Commissioners, acting through the Yellowstone County Board of Planning, have agreed to review, revise, update and adapt the current zoning regulations to meet the modern needs of Billings' growing community.

The Planning Board has formed a Zoning Code Update Steering Committee made up of about 20 community members, officials, and stakeholders from building, engineering and economic development entities in the community to spearhead this effort.

The current zoning code, adopted in 1972 (City) and 1973 (County), continues to provide development regulations set to the plans and ideals of an earlier time.

In 1970, the average price of a new home was less than \$24,000, American military troops were still fighting the Vietnam War, gasoline averaged 12.5 cents per gallon and the Boeing 747 took to the skies. The current code was unified with the County zoning code in 1997 and has grown to more than 450 pages.

Here are a few of the major issues with the current zoning code:

- Ten residential zoning districts in the City, many of which are only different because of slight lot size differences or allowances for one or two units.
- Lot size, lot coverage, and setback requirements that have resulted in the need for many variances for existing development in some of the most stable neighborhoods in Billings.
- Overly restrictive setback requirements for commercial development that sacrifices buildable space for new or expanding businesses.

The City/County zoning jurisdiction

- Lack of consistency of commercial sign requirements across multiple commercial zoning districts and issues of scale, height, and separation in relation to neighborhoods, and motorized and pedestrian traffic.
- Landscaping regulations that are not consistent across zoning districts and do not adequately address the streetscape.
- Addressing the aesthetic and architectural elements of residential and commercial construction to support infill, as well as new development that fits into existing neighborhoods.

An updated zoning code should address the above issues and subscribe to the following standards:

- Be easy to use, administer, and enforce.

- Be well-organized, indexed, and cross-referenced.
- Use clear, precise, and contemporary language.
- Be internally consistent.
- Produce predictable, desired results.
- Balance flexibility and predictability.
- Support the vision and goals expressed in the Billings' 2016 Growth Policy, the 2016 Lockwood Growth Policy and the 2008 Yellowstone County Growth Policy (update process for the County Growth Policy has started).

The first step in the zoning code update process was to separate the unified zoning regulations so there will again be a code applicable only in the County and a code applicable only within the City. The separation, completed in September, will facilitate the revision of the code.

The Zoning Code Update Steering Committee has held two meetings as of this month to help guide the process, evaluate recommended revisions, and forward those recommendations to the full Planning Board, the City Council and Board of County Commissioners for consideration.

The Committee will continue to meet monthly for the next two years to consider and recommend changes to the zoning codes for the City and County.

Nicole Cromwell, City-County Planning Division Zoning Coordinator, is providing direct staff support to the Committee. For more information on this process, she may be contacted at (406) 247-8676 or at cromwelln@i.billings.mt.us.

You are minutes away from opening your account.

CITY OF BILLINGS SOLID WASTE DIVISION

The Solid Waste Division is a unit of the Public Works Department that provides commercial and residential garbage service for Billings. Residential service is billed at the rate of \$11.25 per unit per month for weekly collection.

In the areas that have alleys, 300-gallon barrels are provided by the City to be shared by 2-3 households. Where alleys don't exist, each household is provided with a 90-gallon barrel on wheels. The residents push the barrels out for collection on their day of service.

The Solid Waste office receives phone calls every day concerning different aspects of collection services. The Division's staff thought it might be helpful to provide some guidelines for the residents of Billings regarding garbage collection.

General Information

Solid Waste workers will collect your trash from the public right-of-ways. Staff cannot come on to private property to remove items, even with the permission of the homeowner.

Because of the risk of injury, items weighing more than 75 pounds cannot be collected by the Solid Waste workers.

City ordinance states that refuse resulting from contracted work, be it tree trimmings, hot water heaters, carpeting, etc. is required to be disposed of by the contractor.

The Solid Waste Division no longer holds an annual Toxic Waste Roundup. Oil-based paint, stains, batteries, pesticides, herbicides and other toxic materials can be taken to the Landfill during regular hours. Used oil and anti-freeze are also accepted at the landfill, located at 5240 Jellison Road.

The Solid Waste Division accepts old household refrigerators and freezers at the landfill for a \$23.80 charge for City residents. The charge is for the recovery of the Freon by certified persons within the Division, which is required by federal and state regulations.

The landfill is available for Billings and Yellowstone County residents to use at no charge for household items brought in, weighing no more than 700 pounds. There is a charge for commercial use of the landfill, for residents of other counties that the landfill serves and for residents of the City of Laurel. Hours are 8 a.m. to 5:30 p.m. Monday through Saturday. The landfill is closed on Sundays.

The Solid Waste Division observes the major holidays which include New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. Your collection may be delayed by one day during those weeks.

Commercial containers should never be used by residential customers. Businesses pay commercial rates for their service and this act will be considered a theft of services.

Alley Service

- Use the alley barrel for household trash, primarily.
- Top the barrel off with yard waste or larger items the day before collection.
- Keep the alley clean from your property to the middle of the alley.
- Place items too large for the barrel on your side of the alley for alley cleaning.
- Extra waste is cleaned from the alleys approximately every three to four weeks.
- Only residential trash should be placed in residential barrels.
- Lawn services or tree trimming companies must haul their own refuse.
- Branches need to be prepared in 4-foot lengths and bundled for pickup.
- Long items causing the lid to stand up can cause a mess when the barrel is emptied.

- To help prevent litter, please bag your trash. Tie a knot, it blows a lot!
- Residents should not move or turn barrels from where the City has placed them.

Curb Service

- Collection service begins at 7 a.m. – barrels and any extras should be out before that time.
- The barrel should be placed with the lid opening toward the street.
- Reasonable amounts of extra will be collected on the same day as the barrel.
- Extra barrels shall be no larger than 32 gallons and should have outside handles.
- Extra waste should be placed at least 3 to 4 feet away from the 90-gallon barrel.
- Branches need to be prepared in 4-foot lengths and bundled for pickup.
- Overfilling the barrel can cause a mess when the truck empties it.
- Placing the barrel 4 feet away from obstacles (mailboxes, vehicles, etc.) is required.
- The truck must be able to reach the barrel from the street.
- Barrels cannot be stored at the curb and should be removed after being emptied.
- To help prevent litter and keep your barrel clean, bag your trash.

Yard waste collection lasts from the first full week of April until the last full week of November. Please make sure you place your yard waste container four feet away from any obstructions or other containers.

Holiday Schedule:			
Holiday	Date	Trash Collection	Landfill
Veterans Day	Friday, Nov. 10	On Schedule	OPEN
Thanksgiving Day	Thursday, Nov. 23	Delayed one day	CLOSED
Christmas Day	Monday, Dec. 25	Delayed one day	CLOSED
New Year's Day	Monday, Jan. 1	Delayed one day	CLOSED

If collection is delayed one day, it only affects the customers who would normally have trash pickup on that day and the days following. For example: Thanksgiving -- only Thursday and Friday collection will be affected. The Landfill will be open on Veteran's Day, and will be closed Thanksgiving, Christmas and New Year's Day.

Yard waste pickup will end the last full week of November and resume the first full week of April. The Landfill is only closed one day on the major holidays and that is the day of the holiday.
