

Billings City Administration Weekly Report

July 3, 2019

- 1) **SBURA Meeting** – During last night's SBURA meeting the board unanimously approved a three-month contract with Zeier Consulting. The contract will pay \$8,000/month for a total of \$24,000. No further extensions are allowed under our MOU. I also recommended they hire an outside accountant to manage their finances.
- 2) **Code Enforcement** – During Monday's, July 1st work session there was a discussion regarding where Code Enforcement is paid from. I want to clarify that all of Code Enforcement is paid from the General Fund. I did not give a clear answer leaving some to wonder where Code Enforcement is funded. While the Planning Department (funded through the Planning Fund) oversees the Code Enforcement Division, they do not provide financial support.

Have a safe and happy 4th of July!
