

## Billings City Administrator Weekly Report

January 22, 2021

### 1. **Massage & Body Works Business License Ordinance** – Two brief clarifications in the DRAFT ordinance.

- 1) A felony conviction does not automatically prevent issuance of a business license. See sections 7-1805(d)(11) and (12) which state *“a conviction is not an automatic bar to obtaining a business license”* and *“an indictment, charge, or information is not an automatic bar to obtaining a business license”* also see 7-1806 (b) *“For applicants who fall into any of the categories listed below, the licensing administrator will conduct an investigation as to the propriety of issuing a license.”* The first subsection to 7-1806 (b) 1. Refers to a felony conviction.
- 2) Staff will be recommending adjustments to retain “body works” to minimize loopholes without requiring a state massage license for body works businesses (body works does not require a state license). We received confirmation from the State Board of Massage Therapy counsel that “Nothing in the City’s proposed ordinance would affect the way the Board or the Department regulates currently exempted professionals.” Please share this information with your constituents – many of them have stated they will be put out of business if we fail to fix this discrepancy between our draft ordinance and state law.

Going forward – send Gina and I any feedback on the draft ordinance in writing by 8:00am Monday February 1<sup>st</sup>. Please provide your feedback earlier, if possible. The more specific you can be the better. After staff digests this latest input, we will determine how best to implement the feedback and present these adjustments to a subcommittee of the council. I am targeting March 8 for the public hearing and first reading of a draft Massage and Body Works Business License ordinance, consistent with the council’s direction during our January 18 council work session.

- ### 2. **Stillwater Building Appraisal** – This week Kevin Iffland, Donald Jones, Kevan Bryan and I meet with Joe Holden and his banker to discuss the appraisal process for moving forward with the Stillwater Building. We cannot move forward without understanding the true market value of the building.
- ### 3. **Legislative Video Conference – Thursday January 28 at Noon.** MSUB, College of Business MacDonald Hall, Room 163. The 1<sup>st</sup> of 7 in a partnership between the City, Chamber and MSUB. Please RSVP through Wynnette.

**Legislative Session** – The latest list of bills we are tracking is attached.

4. **Claimjumper Neighborhood Meeting** – Debi Meling, Scott Emerick, Councilmember Ewalt and I met with 16 homeowners, Wednesday evening, regarding the water main break that caused a sewer backup on Veterans Day. The pressure from the water main break, dislodged a nearby sewage manhole casing, causing water to flood into the sewer line causing the backups. This is extraordinarily rare. The purpose of the meeting was to explain what happened and to answer questions.
5. **Quarterly Reports** – Quarterly reports for SBURA and Downtown Billings Partnership and the Annual Report Public Works are attached.

**Have a good weekend!**

**CITY OF BILLINGS**  
**2021 Montana Legislature**  
**Weekly Session Report – January 20, 2021**

## WEEKLY SESSION REPORT

City of Billings

January 20, 2021

- \* After the bill number denotes the bill is dead
- The governor must sign or veto a bill within 10 days of transmittal or it becomes law
- All green shaded bills have become law

## **INTERNAL MEMORANDUM**

**Date:** January 8, 2021  
**To:** Billings City Council  
**From:** Jim Tevlin  
**Subject:** SBURA report for the period October 1, 2020 to December 31, 2020

---

The following is a report from the South Billings Urban Renewal Association (SBURA) related to activities in the South Billings Boulevard Urban Renewal District ("the District") for the period October 1, 2020 to December 31, 2020.

### **Administrative**

Per SBURA's bylaws, no Public Meeting was held during December.

During the quarter ended December 31, 2020, SBURA contracted with Welhaven Consulting LLC to update SBURA's website. The new website has additional information about SBURA's projects, meeting minutes, financial information etc..

Carolyn Rukstad's term as SBURA board President as one of three bylaw-mandated "Enterprise" directors (i.e. the board member must own a business in the District) ends on February 2, 2021. Accordingly, SBURA published three weekly public notices requesting volunteers for this position. The SBURA website also solicits volunteers for this position. As of January 5, 2021, we have received one applicant, Carolyn Rukstad, who is applying for another term.

### **Expansion of South Billings Boulevard Urban Renewal District**

On December 21, 2020, Wyeth Friday, City Planning Director, and I presented to City Council our initial research concerning the possible annexation of properties into the District. We identified three properties located south of I-90 along the Frontage Rd, a single property at the intersection of Jackson Ave and King Avenue East and two City-owned properties as being logical candidates for annexation. After much deliberation, the City Council voted 8-3 to authorize Wyeth and I to continue our efforts for expansion.

### **CLDI Tax Increment Application**

On November 10, 2020, Eric Basye of Billings Community Leadership & Development Inc. (CLDI) presented an application for \$58,100 of tax increment assistance to build a home on Viceroy Lane for resale to qualified low-income applicants. These funds effectively reduce the debt service required of CLDI-vetted home purchasers who have overcome significant adverse life events and seek home ownership. The SBURA board approved their application to move forward to City Council. Per Eric Basye, if City Council approves this expenditure there will likely be three to four additional applications for tax increment assistance.

### **FY22-26 Capital Improvement Plan**

In November 2020, the SBURA board recommended that City Council include the following projects in the FY22-26 Capital Improvement Plan:

1. \$3.9 million in FY22 to improve Vaughn Ln, Mitchell Ave, Morgan Ave, Ryan Ave and Hillview Ln. This is a Public Works project. The SBURA board does not take a position on whether the property owners on these streets should contribute to this effort. Accordingly, the \$3.9 million amount represents the total estimated cost to improve these streets.

After considerable discussion, City Council voted 6-5 for tax increment funds to cover 100% of the cost to improve these streets.

2. \$500,000 in FY22 to build parking facilities on the southwest and northwest corners of Optimist Park. This is a Parks & Recreation Project.
3. \$25 million in FY23 to build a public recreation facility on City-owned land adjacent to Amend Park.

### **Capital Projects**

Given the uncertainty of the Covid 19 virus situation, the timetable for the capital projects below may be impacted.

- **Optimist Park** – \$304,986 of TIF funding is included in the Parks & Recreation FY21 budget for the installation of a picnic shelter, picnic tables, park benches, disc golf and lighting. Per Parks & Recreation Planner Mark Jarvis, the Parks & Recreation Department:
  1. Has picnic tables on hand and ready for installation.
  2. Is soliciting quotes to design the shelter.
  3. Has benches on order.
  4. Is coordinating with Northwestern Energy to install security lighting.
- **Billings Police Dept Evidence Center Expansion** – The SBURA board authorized \$1,000,000 of TIF funds to assist with an estimated \$3,830,000 of construction costs. As of December 31, 2020, \$919,188 of funds have been drawn on this project. The Police Department held a formal dedication on November 5. Additionally, the SBURA board anticipates funding the estimated \$2.8 million of debt service associated with this project beginning in mid-FY21.
- **South Billings Recreation Center** – The SBURA board continues to consider/develop various plans for the development of an athletic facility on City-owned land adjacent to Amend Park. As a result of the Yellowstone County Commissioner's decision to not include a football field/track stadium at MetraPark, SBURA is presently considering a plan to locate the afore-mentioned stadium on City-owned land immediately adjacent to Amend Park.
- **Hallowell Lane** – Public Works has selected WWC Engineering and Sanderson Stewart to design the sewer and water main systems, respectively. At present, both firms are approximately 70%-90% through their efforts to develop their project design plans. Public Works plans to bid the projects in May with construction beginning in September. The construction costs are estimated at \$2.0 million.

## Quarterly Report to Billings City Council

2nd Quarter FY 21

Friday, January 8, 2021

- Status of the N27th/Downtown Tax Increment Fund for FY 21 - Quarter Ending, December 31, 2020 – see attached spreadsheet with fund line items
- DBP Highlights and other work in the N27th Street Urban Renewal District
  - Continuous follow up with Downtown establishments impacted by COVID-19
  - Providing guidance on CPTED reimbursements to establishments with certified evaluations
  - Continuing to field inquiries about future projects and TIF applications
  - Communicate regularly with City Government and news outlets
  - Research Great Falls' Pedlet/Parklet program in an effort to streamline the process in Billings
  - Continue efforts to gather professional photography for downtown marketing
  - Process three large TIF projects
  - Welcome inquiries about the Sign Grant program
  - New Businesses
    - Top Tier Disc Golf at 2814 3rd Ave N
    - Billings Community Foundation relocated to 404 N 30th Street
    - Project Lunch is also relocating to 404 N 30th Street
    - Montana Gallery expanded at 2710 2nd Ave N
    - Miss Gigi's Sweets Offices relocated to the Grand Building above Downtown Jake's (2701 1st Ave N)
    - The Grand Building also welcomed two law firm additions to their suites (Sather Law Firm & Hensel Law)
    - Junior League of Billings relocated to 2824 3rd Ave N
    - Response Design Architects relocated to 2702 Montana Ave
    - The Marble Table at 2515 Montana Ave
- General Alliance Work
  - MAAP program is reactivated through our downtown Resource Outreach Officers & Coordinator
  - Downtown Visitor Guides continue to be distributed
  - Continue service on the Economic Recovery Taskforce
  - Featured the Pumpkin Painting & Upcycled Scarecrow contests
  - Holiday festive & cheerful paintings on business windows
  - Install holiday decorations
  - Distribute new flyers of Spare Change for Real Change

- Paint and prepare the Spare Change for Real Change Giving Boxes
- Research and implement migrating to a new Customer Relationship Management software
- Work with businesses diligently to set up their point of sale systems for the downtown gift cards
- Install stringed lights & a 2nd bike light in the alley on N 29th between Park 1 & Hedden Empire
- Co host with the Chamber of Commerce a CPTED training
- Hosted a successful 30 Days of Eats instead of Restaurant Week
- Promoted Holly Days instead of the Holiday Stroll (a four-day shopping weekend)
- Development Project Incentives (TIF grant projects)
  - Completed
    - Sassy Biscuit/Jook Sign
    - 124 Group/McDonald Lofts (last reimbursement)
    - Alberta Bair Theater (ongoing reimbursements)
    - 704 Properties/Wise Wonders Museum (scheduling reimbursement)
  - In Progress
    - 123 N Broadway, LLC - reimbursement is pending completion of improvements
    - Art House Cinema, reimbursement is pending completion of improvements
    - Billings Symphony/Montana Development Company, LLC - development agreement ready for signatures
  - On Deck
    - Downtown Properties LLC/Stone Building - development agreement being reviewed for signature
    - Halsten Holdings LLC/Burger Dive - development agreement being reviewed for signature
    - R&K Designs LLC/Kibler & Kirch - development agreement being reviewed for signatures
  - TIF inquiries
    - 13 new TIF inquiries

“Exceed expectations through innovation, integrity, and service to the community.” This is the Public Works Department’s Vision Statement and I believe that we met this vision in 2020.

**DEBI MELING, PE**  
PUBLIC WORKS DIRECTOR

This last year was one in which we could not have met the needs of the community without innovation and integrity given the challenges we all faced. We know that setting a goal to exceed expectations is a lofty endeavor since we strive to provide services at such a consistently high level. Exceeding expectations is challenging because people have come to expect nothing less than clean water comes out when you open a tap, roads are cleared of snow, garbage cans get emptied when they are full, and when you flush a toilet, everything goes away! However, I think we were able to meet this goal by maintaining all of these essential services when it could have been expected for us to lose a step here and there.

I am pleased to say that because of the extreme dedication of the Public Works Department staff, the level of service people have come to expect was met again this year and that deserves recognition. So, a huge thank you to our staff – your dedication, hard work and commitment did not go unnoticed. We also appreciate the support of the administration and policy body – we had to get creative to meet needs this year and your support allowed us to do that. And, thank you to the community for your patience when we ran into roadblocks and had to find our way around them. While we hope 2021 won’t throw as many challenges at us as 2020 did, we are committed to providing the services that our community has come to expect and we will do our best to even exceed them on occasion!

## CROSSWALK SAFETY

Community safety is the driving force behind our service mission at Public Works. Seeing our planning measures come to fruition and knowing that we have provided a resource that benefits our citizens is a job perk we both enjoy and cherish.

Recently, there were changes to Federal regulations that required crosswalks at multi-lane roundabouts to be signalized. In order to satisfy these requirements, the City set out to install over 120 flashing beacons on all the crosswalks of the Shiloh Road roundabouts. The project was originally scheduled to be finished in two years, but it was completed this fall due to low construction costs.

The project savings also allowed the City to install flashing beacons on four additional school crossings, furthering our commitment to support the Healthy by Design and Safe Routes to School vision.

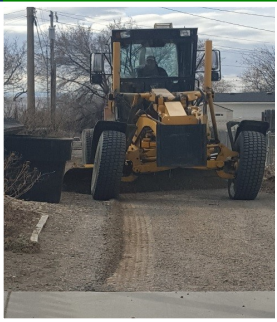

# KEEPING BILLINGS BEAUTIFUL

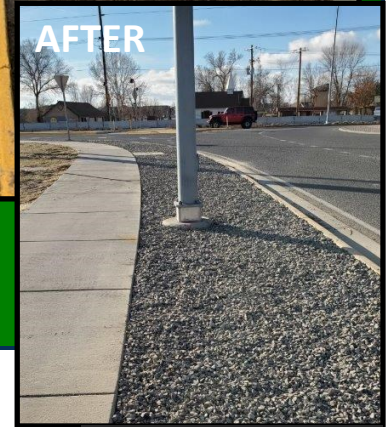

Our Street-Traffic Division was hard at work in 2020. They help keep Billings beautiful and traffic flowing with their maintenance projects throughout the year.

Staff completed over 3,300 hours of mowing maintenance including more than 67 miles of City Right-of-Way, maintained over 25 miles of multi-use trails, provided weed and pest control to over 11 acres, cleaned 28 islands and most controlled intersections, exceeded 40 miles and 500 zones of irrigation blowouts, completed 10 major irrigation repairs along with normal system maintenance and removed 20+ dead or destroyed trees.

Numerous alleys received pruning for sanitation and gravel crews to have better access and site lines to do their work safely.

The island was rebuilt at Grand/6th/Division for a cost of around \$20,000, which included renewing electrical, irrigation, dirt work and new sod. Doing the work in-house was a real money-saver!

*Street Sweeping efforts involving 3,212 hours of actual brooms on the ground sweeping time and resulted in 11,756 yards of materiel removed from city streets.*

*Storm Sewer maintenance accomplished 55,655 feet of storm lines cleaned and video inspected.*

NEW CAMERA  
EQUIPEMNT HELPS STAFF  
GET THE JOB DONE !

We cleaned up  
after more than  
80 deer vs vehicle  
collisions too!

# WHAT IT TAKES

The Public Works Department invests in our City's infrastructures every year for maintenance and improvement projects.

Have you ever wondered what that means exactly? On this page you will see some of our annual reporting for these activities, keep in mind that all of this takes place simultaneously while still addressing any other needs or emergencies that arise.

3,149 tons of asphalt were used at a cost of \$175,286 to complete:

- 72 street surface repairs following utility service leaks
- 34 re-paves following water main projects
- 24 manholes and water valves lowered to aid in the residential snow plowing efforts

All gravel roads were bladed 3 times and dust suppressant was applied. All the alleys in Billings Heights were checked and bladed. Also, all the alleys from Division to 36th Street West between Grand Ave and Old Laurel Road were checked, trimmed of branches, cleaned and bladed this summer.

**Did you know we handle the production and installation of our traffic signs in-house?**

- 773 signs replaced
  - 99 stop signs replaced
- Painting efforts are always on the summer project list. Here's what 2020 looked like:
- 11,540 gallons yellow paint
  - 6,472 gallons white paint

**323 crosswalks were painted and center line striping completed included:**

- Yellow: 1,311,406 feet (248 miles)
- White: 1,270,851 feet (241 miles)

**Street lights often go unnoticed by the community, until they aren't lighting the way:**

- 850 street lights repaired
- 12 light poles repaired
- 10 light poles replaced

**We strive to address community concerns as quickly as possible.**

**In 2020 we responded to and made repairs for:**

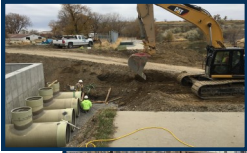

- 147 signals
- 30 school flashers

**There are many other tasks that are taken care of routinely:**

- 50 traffic signal locates
- 24 hours updating times on downtown signals
- 20 hours graffiti removal
- 8 flashing beacon repairs
- 27 hours upgrading red LED signal lights
- 21 hours repairing and painting back plates

**There were 19 signals upgraded with new cabinets, controllers, and some received Gridsmart detection as well.**

## INNOVATION AT WORK

As we reached the final stages of the \$75,000,000 reconstruction project at the Wastewater Reclamation Facility (WRF), we shifted our sights to engaging the new system to its full potential.

Operations at the WRF have been working through refining and optimizing all of the processes throughout the system over the past year. Whether a process came into place as a result of new or upgraded equipment or a change in regulations, 2020 has seen significant positive change through these innovations.

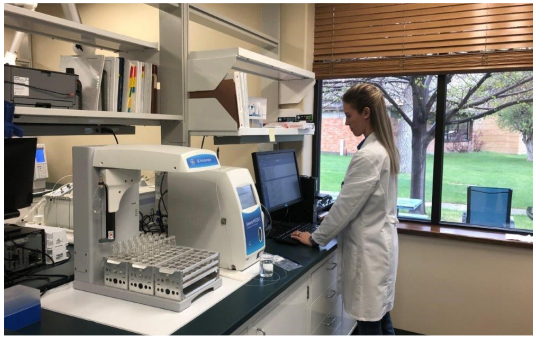

The Facility is performing at the highest levels ever experienced in Billings, providing notable gains in our reclaimed water quality, improved air quality and overall efficiency, including energy savings recognized by Northwestern Energy.

Throughout the reconstruction project and during the fine-tuning phase, staff maintained our service levels and daily operations without missing a beat, despite the additional work and challenges. The time staff has spent focused on lighting the path forward is a testament to their commitment to serving the community and Public Works' investment in our future.

A MESS OF PROGRESS AT THE RECALAMTION FACILITY

## SERVICE LINES

Each year there are a series of pipe-bursting projects which are part of our program to replace outdated water service lines throughout Billings.

The summer of 2020 saw 3,000 feet of service lines replaced and marked the completion of this program for the Southside area, the first part of the City to reach this goal.

During the construction, residents and businesses effected were placed on temporary water service and received regular water quality testing by our State certified Laboratory before, during and after the project.

During the pipe-bursting and other service line replacement projects, the Lab tested 281 samples related to these activities alone.

The two Water Quality Labs are responsible for ensuring water condition throughout the entire water treatment and wastewater reclamation processes. They also providing our annual Consumer Confidence Report and monitor our compliance with applicable regulatory rules.

Sanitary Sewer line blockages were abundant, and crews responded to 117 calls for help. In many cases the culprit was non-flushable items that made there way down the drain. With toilet paper in short supply for part of the year, consumers turned to paper towels or wet-wipes, which are not designed to break down in pipes.

Items like this can make it all the way to the Wastewater Reclamation Facility, causing issues with machinery and systems there too.

We are proud of our staff of essential workers, who maintained our utility services and completed planned projects despite the additional challenges presented by the pandemic.

## DOING MORE

The team at Public Works is always looking at ways to be even better at we do.

With that desire to innovate and improve as the driving force behind two initiatives in development, we are looking to the future with excitement.

These initiatives will support each other in practice and include an advanced Asset Management Plan and refined Geographic Information System.

# Asset Management

Developing a more robust Asset Management Program (AMP) has been on the launching pad as an idea for some time. In 2020 Public Works engaged a consultant to help us apply global solutions to local challenges.

By assisting with the records of all assets, their lifecycle and relationships, Public Works will be able to enhance data-driven decision making and strategic planning efforts to deliver on our commitment to provide the highest level of service and value possible. Which is exactly what our community expects and deserves.

# Geographic Information

Geographic Information Systems (GIS) record data relating to the what and where of well, anything and everything. It provides the exact location and elevation of features, both natural and manmade. Accurate recording and accessibility of this data is critical not only to our operations at Public Works, but also to emergency services throughout the County.

Along with the improved productivity and efficiency to the Public Works' staff also comes greater community engagement through tools like interactive mapping features and open data access.

# IN THE NEWS

You may have seen Public Works in the news this year, with stories ranging from our long time City Engineer, Debi Meling, taking on a new challenge as Director of the Department, to the Wastewater Reclamation Facility earning the City a rebate for energy efficiency, or KTVQ's On the Job with Rob featuring our Distribution & Collections team to other operational and maintenance activity like the Pipe-bursting and Smoke Test projects.

We share televised and digital messaging through our partners at KTVQ-Q2 and their affiliates all year.
