

Billings City Administrator Weekly Report

July 21, 2023

- 1. Park and Recreation News** – The Community Center is receiving a facelift. After the last two (2) hailstorms and a couple wind storms the siding was falling off the building and the roof had started to leak. Thanks to John Caterino with Facilities for managing this project.

June was one of the wettest months on record. Billings received over 6.3 inches of rain and had 20 days with some precipitation. People don't like to go to the pool when it is raining and cold; therefore, pool attendance was down 40% from normal along with total revenue. This will be difficult to make up even if the remainder of the summer has extreme heat. Recreational program attendance remained strong, and the Parks Division saved thousands of gallons of water by not have to irrigate. (Please see the attached Parks projects/status report.)

- 2. New City Hall Update** - This week at the new city hall project the wall framing on the 5th floor continued and is coming along very well. Layout for door openings and column framing is near complete on the 4th floor. Layout for new duct work on the 4th floor is being done as well as getting hangers for the new duct installed. HVAC work continues on the 5th floor. Electrical wall rough in continues to follow the framing around the 5th floor. More plumbing demo was completed this week along with getting some holes core drilled through the 5th floor for new pipe. Made four (4) concrete patches where pipe bollards were removed. Started patching the soffit back in on the east side of the building.

3. Next Week's Meetings/Task Forces

- a. Heights Task Force, Tuesday, July 25th, 7:00 PM, Oasis, 543 Aronson.
