Respected Mayor and City Council Members,

Thank you all for your service to the City of Billings.

I appreciated the opportunity to speak to you all at the last city council meeting regarding the current state of our city and our country.

On Thursday night, January 22nd, I sat in on a national Zoom call with the Freedom Road Socialist Organization wherein they celebrated the chaos going on around the US and extolled it as the opportunity to further the “struggle” (communist buzz word) of the people. I directly heard one of their national Central Committee members say “Just because something isn’t legal, doesn’t mean we won’t do it.” They know their constitutional rights and they don’t mind going to jail. This is not what we should want for our city- which already has enough problems of its own.

Just in case some of you have not had time to familiarize yourselves with the background of this organization, here is a relatively short Youtube video documenting their history here in America.

<https://youtu.be/px0gyOBPQ4c?si=R7ET6tNTAk1ckJSo>

This video should give everyone great pause and cause to question any community group that aligns itself with FRS*O. This is not a group that will bring peace to our city, but rather, stir up further division.

I pray you will deal with this information wisely and in the best interest of the peace and safety of our community.

Thank you again for your time.

Sincerely,
Jennifer Strong

Subject: [EXTERNAL] Yellowstone Estates zone change request
Date: Saturday, January 24, 2026 12:54:17 PM

Hello,

I'm a City of Billings resident, Yellowstone Club Estates resident, tax payer, Home owner, small business owner and YCC member.

Regarding the zone change request by the YCC, I encourage a NO vote please.

The majority of the members at the YCC are a NO vote.

The majority of the HOA members/homes are a NO vote.

All people who love and use parks and rec (and trails) are a NO vote.

Billings citizens are fighting for more recreation/sport lands, facilities not less. Let's keep as many lands in recreation or trails as possible. There are endless amounts of land else where to build and make profit.

YCC's mismanagement of funds should not negatively affect the citizens of Billings and our trails and recreation systems.

Voting yes to this is encouraging two things; one, litigation around trail zoning. Two, YCC bad management being bailed out by our city council.

Thank you for your time and service.

Cody Hoefle

Kim:

Thanks for this! I know that the airport has heard of other issues on this, and that they've been sent to the airport for comment. I'll forward this to the City Administrator, and ask him to look in to it for us.

Mike

Dear council members,
The airport expansion is beautiful and I applaud the inclusion of regional art in the visitor experience. Can you tell me if the flight patterns have been altered. We seem to be experiencing a large increase in traffic over our home, both airplane and helicopter. Can you help me find the reason why?

Regards
