# Cycling in Traffic

**• USE HAND SIGNALS**

Signal all turns and stops ahead of time, and then make your intended move only when it is safe to do so.

**• BE CAREFUL AT INTERSECTIONS**

The majority of accidents happen at intersections. Proceed with care. Vehicles making turns are particularly dangerous.

**• BE WARY OF PARKED CARS**

Motorists can unexpectedly open doors. Be particularly careful if you see a motorist in the car.

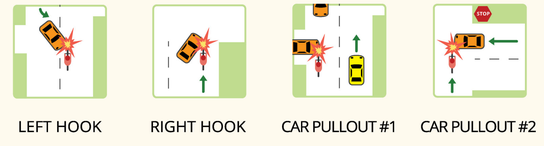
**• CROSS RAILROAD TRACKS CAREFULLY**

Cross railroad tracks at a perpendicular angle so your tire does not slip on the rail. Wet railroad tracks are very slippery.

**• AVOID MAKING ERRATIC MOVEMENTS**

Avoid dodging between parked cars. Motorists may not see you and find it difficult to predict erratic behavior.

## COMMON CAR-BIKE COLLISIONS



**• USE APPROPRIATE LANE**

Avoid being in a right-turn-only lane if you plan to proceed straight through. Move into the straight-through lane early. In narrow lanes or slow moving traffic it may be best to ride in the middle lane.

**• SCAN THE ROAD BEHIND**

Learn to look back over your shoulder without losing your balance or swerving. Some riders use rear view mirrors. Although bicycles have equal right to the road, be prepared to maneuver for safety.

**• RIDE DEFENSIVELY**

Prepare for the unexpected and plan alternate maneuvers to avoid conflict. Rules do not always protect cyclists from injury.

**• BE COURTEOUS**

Share the road and the responsibilities. Motorists and cyclists get along much better when they are courteous.

**• PEDESTRIANS ALWAYS HAVE THE RIGHT OF WAY**

*Always.*

## Make the healthy choice every day

healthy design

www.healthybydesignyellowstone.org

MOSS MANSION

NORM'S ISLAND

LAKE ELMO

PIONEER PARK

**BE PREDICTABLE**

Ride straight, use bike lanes and be prepared to use a full lane as permitted by state law.

**MAKE EYE CONTACT**

Ride defensively, be alert, able to HEAR and expect the unexpected.

BILLINGS - YELLOWSTONE COUNTY

MPO

METROPOLITAN PLANNING ORGANIZATION

BILLING PUBLIC LIBRARY

SWORDS PARK

**CAUTION WHEN PASSING**

People may not see you on the right from inside the car. Stay out of its "blind spot" and carefully overtake a right-turning vehicle.

Pass On The Left.

**SAFE LEFT TURN**

You can either signal and merge into the left lane or ride to the corner and wait. Be Aware.

**OBEY ALL SIGNS AND RULES**

Following the rules of the road helps keep you safe.

**LOCK YOUR BIKE**

Use a rack if available and keep your bike out of the area where people walk. Well-lit and traveled areas work best. When parking to a city "staple" rack, park parallel.

**AUDIBLE WARNING ON TRAIL**

When passing a person who is walking, give an audible warning. A bike bell is the most common but some choose to call out.

Brake For People.
