- Education

QUICK FACTS:

- Over \$5,000 generated for programming and scholarships
- Six new or expanded services developed
- Three volunteers recruited
- Supported at least 60 children from low-income households

Yellowstone Art Museum

Billings Metro VISTA Members create beautiful programs at the Yellowstone Art Museum!

Since 2021, Billings Metro VISTA Project members have participated in projects with the Yellowstone Art Museum to increase access to art education and develop beneficial programming for low-income populations. These projects included improving and raising awareness for YAM's virtual content, connecting with educators and organizations in the community to raise awareness of the YAM's educational programs, assessing barriers to access, and developing content relevant to underserved communities in the Billings area through the incorporation of content and performances relevant to the Crow Nation.
